INDIA
EFFICIENT.

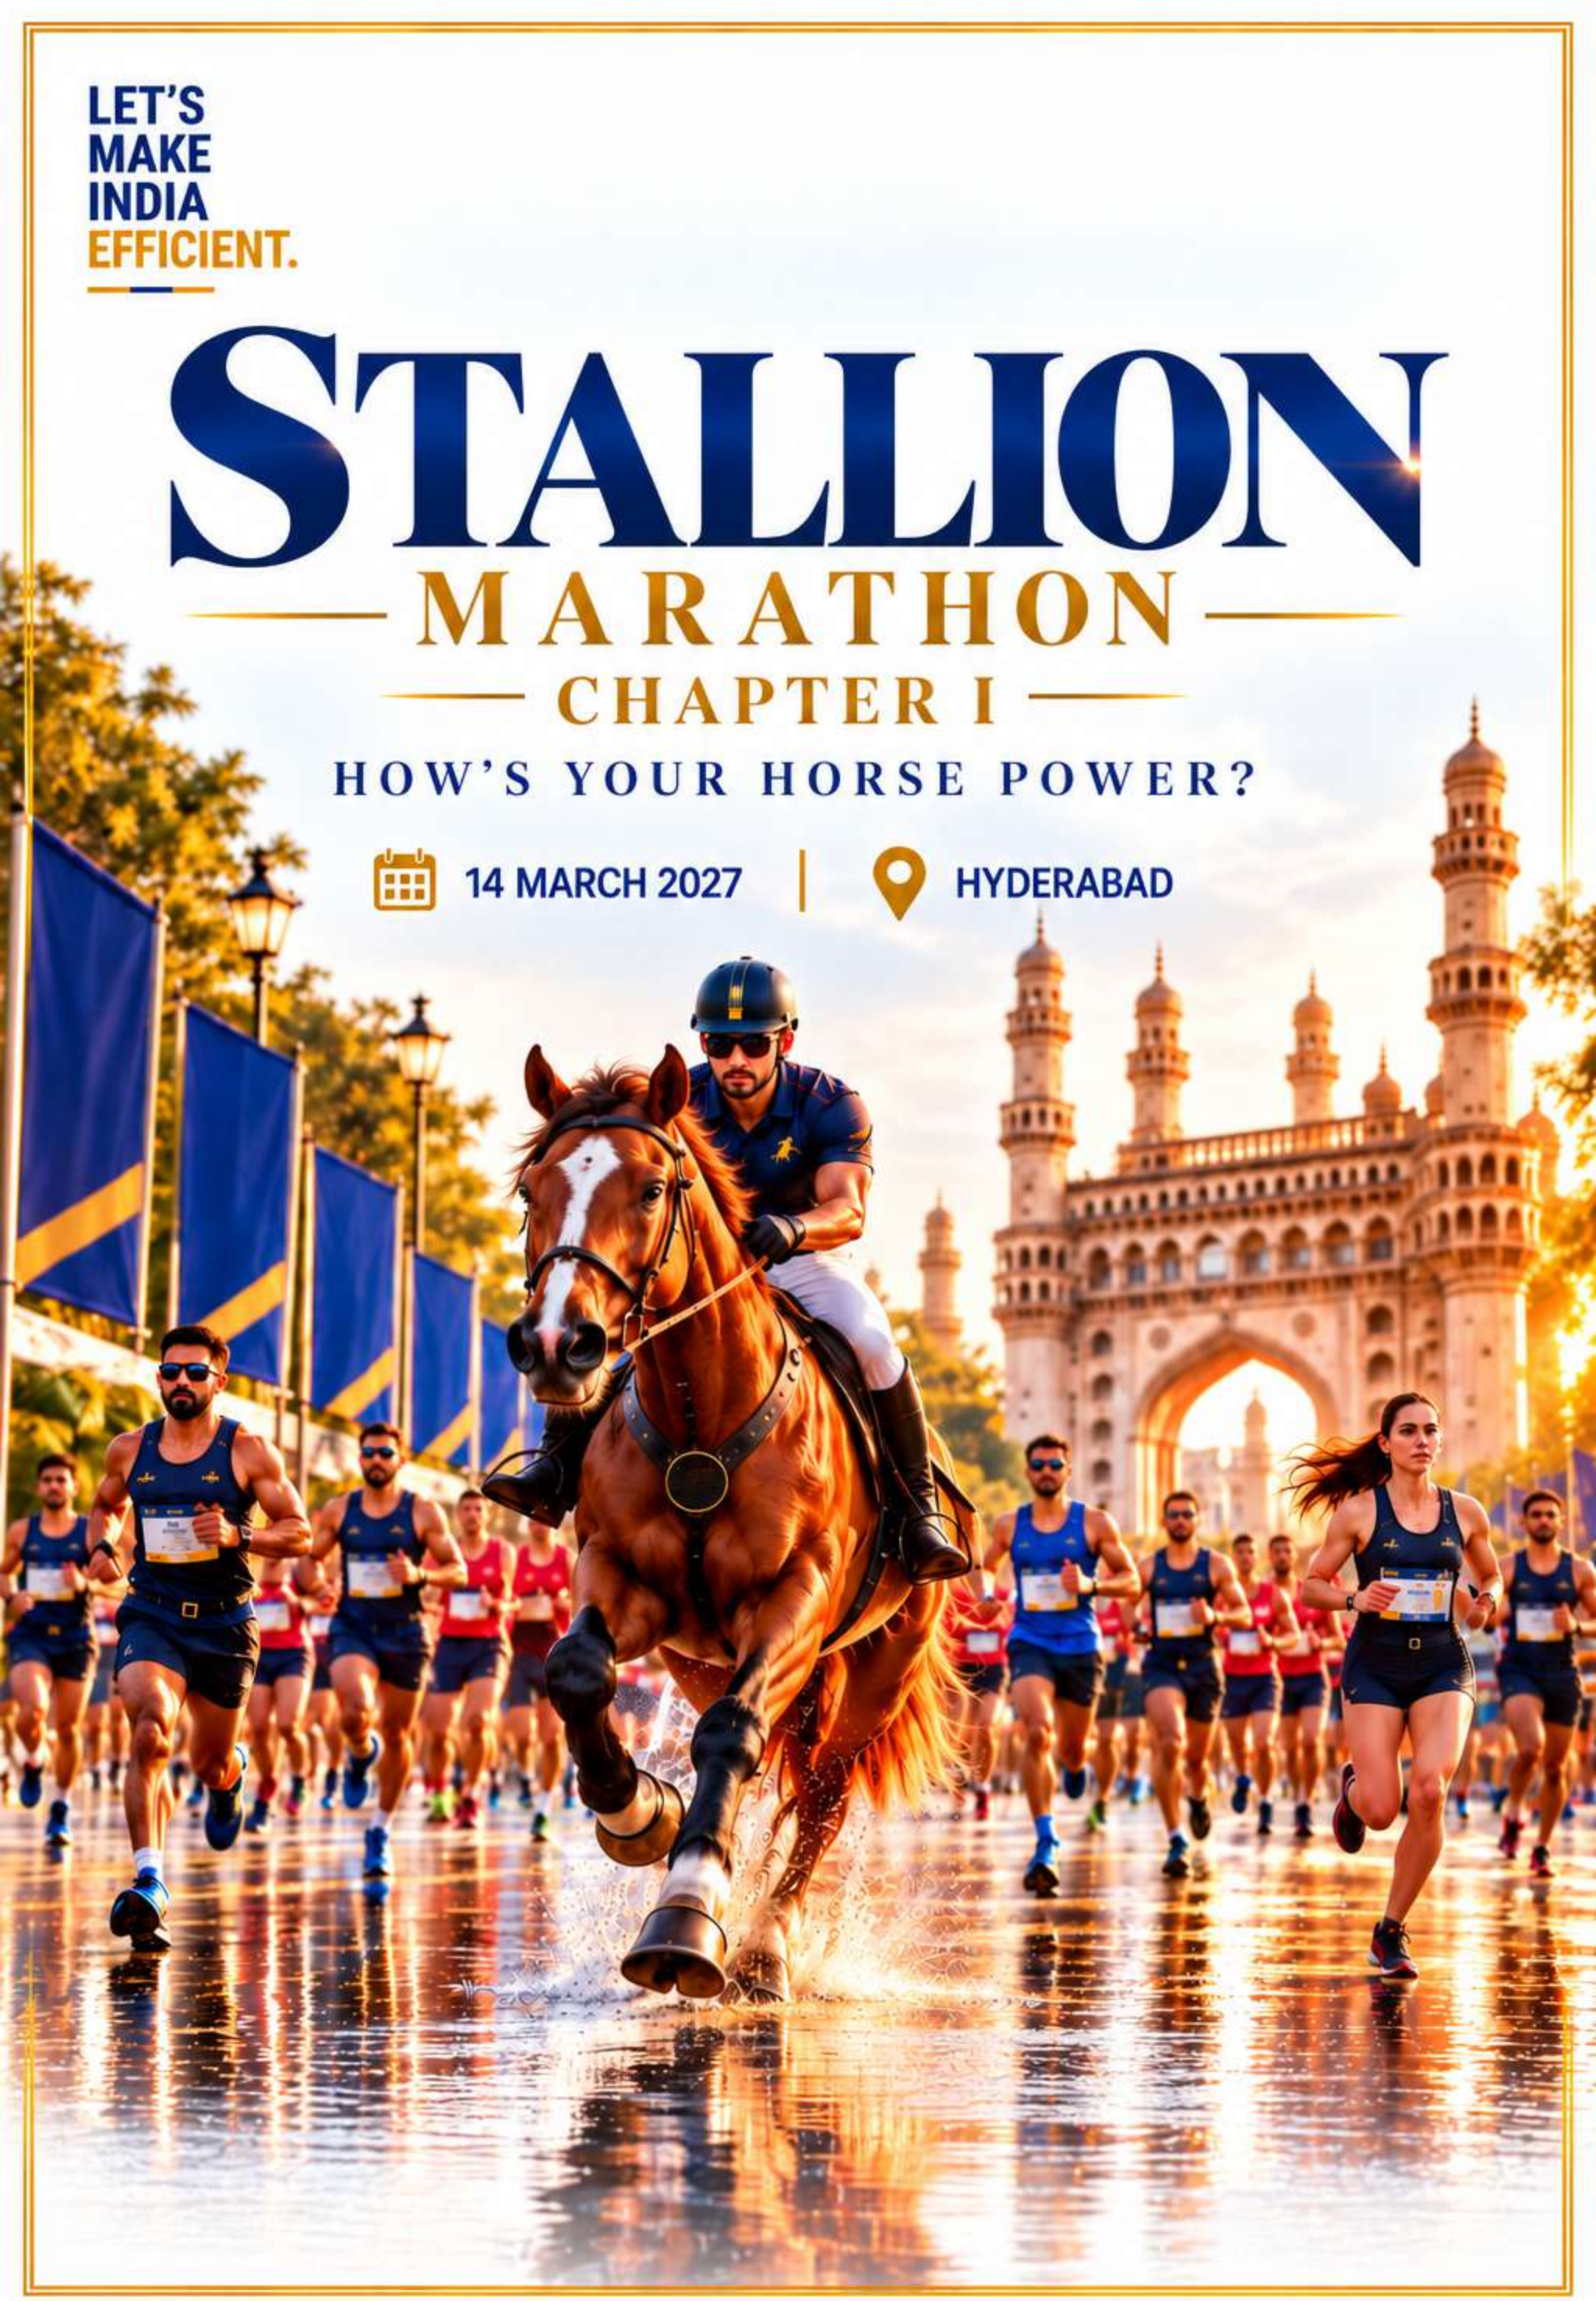

STALLION

MARATHON

CHAPTER I

HOW'S YOUR HORSE POWER?

14 MARCH 2027 | HYDERABAD

02. OVERVIEW

CAMPAIGN CONCEPT & POSITIONING

A marathon led by horsepower energy, with multiple workshops surrounding it for more than two months — built to increase work efficiency.

The campaign runs in three phases: workshops, then the Stallion Marathon itself, then more workshops, so a partnership isn't a single race-day appearance but a sustained, multi-month presence.

The marathon takes its identity from the stallion — a symbol of raw power, freedom and pedigree — carrying forward the **Khoj Khud Ki** (discover yourself) story that sits at the heart of everything Lemerian does.

CHAPTER 1

STALLION HOSPITAL CHALLENGE

A Hospital Wellness Partnership — Stallion Marathon, Chapter I

14 MARCH 2027 | **LEMERIAN WORKIN PVT LTD**
BANJARA HILLS, HYDERABAD

"Khoj Khud Ki. Untame Your Strength."

1 WHY YOUR HOSPITAL SHOULD JOIN

Public recognition
and brand association with Stallion Marathon, Chapter I.

A team-building opportunity
for your staff.

Positioning as a hospital
genuinely invested in staff wellness — fitting, coming from those who look after everyone else's health.

Brand visibility
across the event and its promotion.

A positive public image,
reinforced by media coverage.

Workshop access for your staff,
across Stallion's BODY / MIND / EDGE tracks.

The full range of standard Stallion Marathon benefits
for every staff member who takes part.

STALLION MARATHON

CHAPTER 1

STALLION HOSPITAL CHALLENGE

A Hospital Wellness Partnership — Stallion Marathon, Chapter I

HOW THE CHALLENGE WORKS

Hospitals are grouped into three categories by headcount, covering institutions of every size:

HOSPITAL SIZE	STAFF HEADCOUNT
Category A	4,000 staff
Category B	1,500+ staff
Category C	Below 1,500 staff

Within each category, the HR whose hospital brings in the most staff bookings for the marathon wins that category — so there are three winning HRs in total, one per category, each competing only against hospitals of a similar size.

THE HR's ROLE

Motivate your staff to take part — and keep motivating them.

Reinforce why physical wellbeing matters, and position the Stallion Marathon as more than a single race day: it's a holistic, two-month programme of workshops covering physical, mental, emotional and skills development, building up to the run itself on 14th March.

The more staff an HR brings to the start line, the stronger their hospital's standing in the Challenge.

Lemerian Workin Pvt Ltd handles every piece of on-ground logistics — posters, setup, banners — so an HR's energy goes entirely into getting people motivated, not into organising the event.

THE REWARD – PER CATEGORY

Each of the three category winners — Category A, B and C — earns the full reward below.

For the Winning HR

₹50,000 cash prize

A public, honourable mention as the HR who drove the most bookings in their category.

For the Winning Hospital

A trophy

A hospital mention on stage at the event.

Special-edition medals for their participating staff.

Lemerian Workin Pvt Ltd handles every piece of on-ground logistics — posters, setup, banners — so an HR's energy goes entirely into getting people motivated, not into organising the event.

THE COMMITMENT

Five commitments. One belief: we can do more.

01 FOR EVERY STRAY.

Compassion doesn't stop at our own door.

FREE treatment for sick and injured strays, and when the weather worsens, we give them a dignified burial — instead of letting them be forgotten on the streets.

- **Medical Treatment**
- **Street Rescue**
- **A Dignified Goodbye**

02 A CHILD'S CHANCE.

Every missed school year is a door that gets a little harder to open again.

A child's education is often the difference between a family's income, a child's safety and their future. We provide stationery kits and contribute towards school fees for a limited number of students each year, prioritising those who would otherwise be pushed out of class.

- **Stationery Kits**
- **School Fee Support**
- **A Chance to Stay in Class**

An efficient India needs a healthy India. A healthy India needs a caring one.

None of this makes headlines. It just happens quietly, for as long as people care.
